A4TD
ASSOCIATES FOR TRAINING & DEVELOPMENT

Job Opening: Director of Programs

We are looking for a genuine, hardworking Director to support and lead a team of self-directed, idea-generating leaders.

Everyone on our team is a leader because of their vision, passion and commitment to helping create positive change. We value colleagues who prioritize teamwork and collaboration over competition, who embrace flexibility and change, and have the ability to connect with people.

We can train the right person!

Who we are:

Associates for Training and Development (A4TD) is a private non-profit organization that administers job training programs for mature workers in five states: CT, ME, NY, PA, and VT. For over 38 years, we have built extensive expertise in serving the diverse needs of older, unemployed workers who want to work. As the demographics of our country's workforce change, our experience shows that mature workers bring needed skills and talents to the workplace. More than ever during these difficult pandemic times, it is our commitment to our program participants, partners and funders that grounds us. We have the fortitude to see it through.

A4TD has an opening for a **Director of Programs** position **(CT/ME/VT)** to join our dedicated, mission-driven team. Our dynamic team comes from diverse backgrounds. We are teachers, coaches, accountants, former restaurant and retail managers, human service coordinators, veterans, and more. What brings us together is our drive to make a difference in our program participants' lives.

What is the job?

You will lead a team that administers the **Senior Community Service Employment Program (SCSEP) in Connecticut, Maine, and Vermont.** The SCSEP connects low-income, unemployed mature workers with paid internships (in-person and remote), and then helps them transition to permanent employment to achieve economic independence. You ensure that the mission, goals and program objectives are fulfilled, including participant recruitment and enrollment, training, and employer and host agency development. You integrate yourself into communities to build partnerships and you make use of your knowledge of the local labor market to expand our employer base. Your daily communications with staff offer support for program operations and compliance. You manage to performance and are goal driven. You work with the Vice President of Programs to carry out companywide program management functions that satisfy grant requirements, including assisting staff to develop and execute program initiatives, marketing, and regional office staff onboarding. Moderate in-state travel is required and reimbursed (travel expectations are reduced during the pandemic). The position will be located in Connecticut, Maine or Vermont, and is remote until we can safely reopen the office.

Your job functions are to:

- Support and supervise Regional Directors/Coordinators to achieve performance goals and meet program requirements
- Monitor, analyze and ensure compliance with program regulations and A4TD's mission, policies and procedures, taking corrective action as needed
- Work with Regional Directors/Coordinators to build program capacity through local connections with the American Job Center Network, WIOA partners, and workforce and aging service organizations. Also, help A4TD staff develop recruitment plans for minorities, veterans, and people with barriers to employment, and lead staff in the development and implementation of strategic outreach plans.
- Develop Host Agency assignments and credentialed training opportunities that correlate with in-demand growth sectors, while engaging with the business community to develop employment opportunities for program participants
- Assist the Vice President of Programs in project development and administrative functions, and oversee a SCSEP project at the local level when there are staff shortages
- Participate in and support the grant application process as necessary
- Welcome other special projects, duties and responsibilities that leads to program success

What you bring to the role:

- **Relationship-building skills:** outreach, networking, responsiveness, creativity, and understanding of cultural diversity
- **Project management skills to include:** strong time management; ability to analyze, evaluate and set benchmarks; ability to identify, delegate and monitor completion of tasks
